

JITENDRA SHARMA

Software Developer | AI Engineer | Networks, Security & Cloud

Kathmandu, Bagmati Province, Nepal • +977 9709155000 • Jitendra.route2uni@gmail.com • linkedin.com/in/jitendrasharma27

PROFESSIONAL SUMMARY

IT Infrastructure Lead and certified AI Engineer with 5+ years designing, securing, and operating network, server, and cloud environments across IT services, financial co-operatives, and telecom in Nepal. Currently owns infrastructure, data security, and end-user systems end-to-end as IT Officer at Route2Uni International Group, building policies and support processes from the ground up. Combines hands-on network and cybersecurity expertise with AI-assisted automation to streamline IT operations, backed by a track record of training 400+ non-technical staff and healthcare professionals on new systems. Targeting IT Infrastructure Lead, Network & Systems Engineering, or AI-Enabled IT Operations roles at growth-focused organizations.

CORE COMPETENCIES

- Software Development & Programming
- Frontend Development
- API Integration & Database Management
- Server Management
- Network & Server Administration (LAN/WAN)
- Cloud Fundamentals AWS & Linux
- Cyber Threat Management & Data Security
- Backup, Business Continuity & Disaster Recovery
- Database & System Administration
- AI Engineering & Data Science Workflows
- Database Design
- Technical Training & Documentation

PROFESSIONAL EXPERIENCE

Information Technology Officer

April 2026 – Present

Route2Uni International Group | Kathmandu, Nepal

- Manage IT infrastructure, networking, servers, security, and end-user support.
- Manage and update the CRM portal, university details, and organizational data using Google Sheets.
- Troubleshoot IT, network, server, and system-related issues to ensure smooth operations.
- Implemented backup and data-security protocols protecting sensitive student and organizational records.

Front-End Developer

July 2025 – April 2026

Citizen Infotech Pvt. Ltd. | Kathmandu, Nepal

- Build responsive, accessible user interfaces and SPAs with HTML, CSS, JavaScript/TypeScript, and frameworks like React.
- Convert UI/UX designs into clean, reusable components and interactive features (forms, dashboards, real-time updates).
- Optimize performance, bundle size, rendering speed, and cross-browser/device compatibility.
- Write testable, documented code; participate in code reviews and CI/CD processes.
- Collaborate with designers, back-end developers, and product teams to deliver polished user experiences.

IT Support Specialist

February 2025 – July 2025

Citizen Infotech Pvt. Ltd. | Kathmandu, Nepal

- Delivered end-to-end IT support across servers, network, hardware, and software environments for business clients.
- Maintained system uptime through preventive maintenance schedules and rapid incident response.
- Strengthened system reliability through proactive troubleshooting and maintenance planning.

Technical Trainer

August 2024 – February 2025

Citizen Infotech Pvt. Ltd. | Putalisadak, Kathmandu, Nepal

- Designed and delivered IT training on e-HMIS & EHR systems to 400+ health workers and professionals, accelerating system adoption.

Information Technology Engineer

Nov 2021 – July 2023

Hamro Madhyawarti Saving & Credit Co-operative Ltd. | Bardiya District, Nepal

- Managed system administration, network infrastructure, and database support for cooperative operations.
- Implemented data security measures and backup strategies that strengthened business continuity.
- Delivered technical training and user support that improved system adoption across the organization.

Electronic Engineer Intern

April 2019 – June 2019

Nepal Telecom | Nepalgunj, Nepal

- Supported installation, configuration, and maintenance of telecom equipment and communication systems
- Collaborated with senior engineers to resolve network and equipment-related issues and ensure service continuity.
- Performed basic testing, fault identification, and technical troubleshooting of communication equipment.
- Gained hands-on exposure to embedded systems, circuit design, and hardware-level troubleshooting.

KEY ACHIEVEMENTS

- Developed and maintained responsive web applications and user-friendly interfaces using modern frontend technologies.
- Integrated APIs and backend services to deliver dynamic, reliable, and data-driven web solutions.
- Delivered e-HMIS & EHR system training to 400+ health workers, supporting successful adoption of digital healthcare systems.
- Earned certifications in Cyber Threat Management and AI Engineering, bridging traditional infrastructure operations with AI-driven workflows.
- Progressed from Electronic Engineer Intern to IT Infrastructure Officer within five years across telecom, financial co-operative, and IT services sectors.

EDUCATION

B.Tech Electronics & Communications Engineering

Guru Nanak Institutions Of Technical Campus (JNTUH) | Jan 2017 – Mar 2022

Diploma in Electronics and Communication Engineering

SRM College of Technical Education (HSBTE) | Jun 2014 – Jun 2017

CERTIFICATIONS

- Cyber Threat Management
- AI Engineer for Data Scientists Associate
- Data Analyst Associate
- Computer Hardware Basics
- Database Designer
